Get the Blackboard Instructor app to view course content, grade assignments, connect with students in discussions, and send announcements! See what your students see.

AUP Blackboard Mobile for Faculty Getting Started

The Blackboard Instructor app is available on iOS and Android tablets and phones. Your device needs one of these operating systems:

iOS 11+

Android 5+

From your tablet or phone, access the appropriate app store. Search for **Blackboard Instructor**, not the student app. Look for the logo on the left. Install the app on your mobile device.

[Download to your Apple® device](#)

[Download to your Android™ device](#)

Open Blackboard Instructor and search for the name of your school. Enter: **American University of Paris**.

Log in to the app with the same username and password provided by your AUP network.

Touch ID

The Blackboard app supports iOS Touch ID and Android fingerprint login. After you've set up that feature on your device, you can use your fingerprint to log in to the Blackboard app.

1. Log in to the Blackboard app with your username and password.
2. When prompted to use Touch ID or fingerprint login, tap Continue.
3. If you're already logged in to the app, access Settings from the app's main menu. Tap Touch ID and enable it.
