**Which Math placement test to take?**

**TEST MATH GENERAL EDUCATION:**
The test determines if students have to take a math class or not in order to fulfill our General Education requirement.

**TEST 1 ALGEBRA:**
For students interested in taking higher levels of math. The test determines whether students can go straight into MA1020 or MA1025 or if they need to take their prerequisites first.

**TEST 2 PRE-CALCULUS:**
For students who have taken algebra already (or placed above) and wish to see if they can go straight into MA1030 or if they need to take its prerequisite first.

**SIGN-UP** for a Math placement test here: [https://my.aup.edu/webform/math-placement-tests-sign-up](https://my.aup.edu/webform/math-placement-tests-sign-up)

⚠️ Each Math placement test can only be taken once.
