Subject: TLC News - Digital Literacy

Dear Colleagues,

The good news about Digital Literacy is that it's already happening at AUP, and we saw many examples of it at the recent Faculty Retreat. But with everything else we have to do, are we all convinced that spending precious teaching time on DL is really worth it?

If in doubt, or simply for more information, see the link below, the latest offering from ASM's *Peacock Play*, an argument for teaching/learning digital literacy. (Thanks to Hannah Westley for sharing!)

In a time when our lives are becoming increasingly digitalized and issues of privacy versus national security rising, the question that we must ask ourselves is "is my online information secure?"
