

YOU MUST UPDATE YOUR RESIDENCY RECORDS

All the students (NON EU & EU) must update their residency records with the Immigration Office of AUP.

As long as the residency is not updated in our database, the stay in France under a student status is **not** legalized.

- When the NON EU students are done with their **OFII appointment**, they must send SIS a copy of their (NEW) OFII sticker+ the student visa on the day which follows their OFII appointment- **no later.**
- When the NON EU students have been issued their **“Récépissé”**, they must send SIS a copy of their NEW “Récépissé” on the day which follows their appointment at the Préfecture de Police- Cité Universitaire- **no later.**
- When the NON EU students have been issued their **“Titre de Séjour”**, they must send SIS a copy of their NEW “Titre de Séjour” on the day which follows their appointment at the Préfecture de Police- Ile de La Cité- **no later.**

Important- Having one’s nationality and residency situation both updated in the University database is a mandatory requirement to be authorized to study here.

Being in touch with SIS regarding this matter is under the student’s responsibility.

This includes the NON EU students who **do their residency application on their own**:

- If you are used to do the residency application on your own, you must inform SIS about your current situation, and make the necessary updates (copy of the OFII sticker+ the student visa, or the copy of the Récépissé, or the copy of the new Titre de Séjour,;
- If you hold a MAE card- Titre de Séjour Spécial (issued by the Ministère des Affaires Étrangères/ French Foreign Office), you must inform SIS about your current situation, and make the necessary updates;
- If you hold a Titre de Séjour (Vie privée et familiale, Visiteur, Entrepreneur profession libérale- Exercice d’une activité non salariée”, Passeport talent Famille, Étranger Mineur en France, etc), you must inform SIS about your current situation, and make the necessary updates.
