USING THE SOURCE CONTROL PANEL

- Press **ON** to activate the display.
- Before you leave the room, log out of your session and turn the display **OFF**.
- Choose the **PC** source to show the classroom computer’s content on the display. Log in on the computer with your AUP NetID and password.
- Select **SHARELINK** to wirelessly display your personal device’s screen. Connect using the IP address and code displayed on the welcome screen.
- Turn the **VOLUME** knob to adjust the audio. Make sure the PC’s audio is not muted and is at 100%.
- Select **LAPTOP** to display your personal device’s screen using an HDMI cable. You can borrow an HDMI cable and the necessary adapters from the Navigation desk.
