Foreword

There are some questions and ideas that inspire and drive us. They seem to provide the energy that is required if we are to spend long hours in a library, or are seeking to design and redesign experiments, or to devise and realize creative pieces. Such patient, humble, yet exciting work brings discovery, innovation, and beauty into and out of our community.

At AUP, we view research and teaching on a continuum, such that both knowledge creation and transmission are informed by each of these.

AUP Strategic Plan 2015 - 2020

This booklet lists the achievements of AUP faculty in several disciplines. The faculty's work is a source of inspiration for our students who, under the mentorship of their professors, learn to take their own steps down the difficult yet engaging paths that lead to discovery and creation.

A particular thanks goes to Sinead Foley for all her patient and meticulous work in collecting and organizing the information.

We hope that this booklet will serve as an encouragement to those who are formulating the questions and ideas that will allow them to make their own contribution to their field and to our, small and large, communities.
